

LS

**Tools for the machining of pipe ends with 140° metallic
lenticular gaskets
(to BASF and DIN 2696)**

DN 8 – 200 mm (3/8"-8")

EFCO-LS with guide bush

Precise special guides provide for completely centred machining of the sealing face.

Guide bushes are used for small nominal diameters.

Even for large diameters, our special jaw chucks enable precise guiding of the grinding tool.

Our EFCO-LS tools are supplied complete with guide bush or rim chuck and an extensive assortment of various abrasive cloths in a plastic carry case.

EFCO-LS with jaw chuck

Subject to technical change.
